Motivated software engineering fresh graduate equipped with the latest industry knowledge and 6 months of practical experience in software engineering. Seeking an opportunity to apply my skills and contribute to the development of innovative solutions in a dynamic and challenging work environment.

## EXPERIENCE

### Full Stack Software Engineer (Intern)

**Hotayi Electronic**
November 2022 - May 2023

- Collaborated with development and production teams to develop and publish new function for full stack in-house shop flow software application by utilizing Visual Basic and .NET Three-Tier Architecture with SQL database; improved overall user experience.
- Provided technical support to end-users by promptly addressing their concerns and issues; ensured minimal disruption to their workflows.
- Reviewed, tested, coded, debugged and delivered software updates for the shop flow system to meet specific requirements, including new features, bug fixes, and enhancements.

## EDUCATION

### Bachelor of Software Engineering (Honours)

**Tunku Abdul Rahman University of Management and Technology (TAR UMT), Kuala Lumpur, Malaysia**

June 2020 - May 2023                                                     CGPA 3.62 / 4.00

Achievements:
- Awarded the President's List for achieving a perfect CGPA of 4.00 in May Semester Examination 2020, achieving a CGPA of 3.90 and above in Jan Semester Examination 2021, and being awarded the Dean's List for achieving a CGPA of 3.80 and above in Sep Semester Examination 2021.

## PROJECT

### Web-Based Integrated Cafeteria Food Ordering System

- Utilized HTML, CSS, and JavaScript for front-end, and C# and MySQL for back-end
- Employed ASP.NET Core MVC .NET 6.0 framework for efficient and secure development
- Provide cafeteria staff with real-time information on order volume and popular items, enabling more efficient food preparation and inventory management.

## SKILLS

Java, Kotlin, Python, C, C++, C#, Visual Basic, HTML, JavaScript, CSS, SQL, ASP.NET
